Hallowe'en Shell Out Tickets To Aid Swimming Pool Fund

The Didsbury Lions Club is attempting to further its efforts towards the building of a swimming pool in Didsbury and Monday the school children began the sale of Hallowe'en "shell-out" tickets, as a means of adding to the swimming pool fund.

The tickets are being sold in sheets of 100 and may be purchased for \$1.00 per sheet. When the children have their rounds on Hallowe'en night housewives are urged to have these tickets on hand and give them out to the boys and girls who annually make the rounds on this occasion.

As a reward for those collecting the most tickets on Hallowe'en night special prizes will be given. Hallowe'eners are urged to accept these tickets when making the rounds for in so doing they are helping to get a much-needed swimming pool in Didsbury which in the years to come will provide summer sport that can be enjoyed throughout the warm months.

Mrs. Householder, if you haven't purchased your Hallowe'en "shell-out" tickets, do so at once. Tomorrow night (Thursday) the boys and girls will be around and you don't want to disappoint them.

Those who haven't been canvassed for Hallowe'en "shell-out" tickets may purchase them from Art Reiber.

LONG YEARS AGO

October 27, 1920

The vote on the question of whether the people wished the importation of liquor to be stopped was answered with an emphatic "yes" at the Didsbury polls. In the dominion-wide poll Alberta, Saskatchewan, Manitoba and Nova Scotia voted "dry" but the new law providing for prohibition will not go into effect for another sixty days.

There is money in farming these days—selling beef for 5 cents and paying 65 cents for bacon!

W.S. Durrer, undertaker, has an automobile hearse as well as a horse-drawn hearse to accommodate the most particular relatives.

Sunny Alberta has again lived up to its reputation and the weather has been bright and warm with just enough frost at night to put pep into the early risers.

J.A. McGhee of Didsbury has been elected first vice president of the Alberta Hockey Association.

J. H. Lowrie was manager of the Royal Bank branch at Didsbury in 1920, and A.R. Kendrick was manager of the local branch of the Crystal Dairy Ltd.

DONALD ROBERTSON STOOD EIGHTH IN JUDGING

Donald Robertson of the West Didsbury Beef Calf Club placed eighth out of about 30 members in the judging contest when four Hereford Heifers were judged. The Kwanis Club in Calgary donated \$175 in prizes to be divided between the boys and girls who made top marks.

\$5,000,000 Canadian Red Cross Campaign Starts Next March

Plans for a \$5,000,000 National Red Cross Appeal in the month of March, 1947, for its peacetime work throughout Canada were announced recently by Arthur L. Bishop, Chairman of the Society's National Executive Committee.

Decision to hold a campaign in March was made at a recent meeting of the National Executive Committee, where it was established that a \$5,000,000 budget represented an absolute minimum of funds required to finance the programme.

In making the announcement, Mr. Bishop stated: "From its great

HOCKEY REORGANIZATION MEETING IN LIONS HALL THURS., OCT. 31

A meeting has been called for Thursday, October 31st at 8 p.m. in the Lions Hall, Didsbury, for the purpose of re-organizing the senior Hockey club for the 1946-47 season. The matter of entering a team in a league to take in the towns of Crossfield, Carstairs, Didsbury, Innisfail, Olds and Bowden, will be discussed, as well as other important business, and all those interested in hockey in Didsbury are asked to attend.

HON. MEMBERSHIP TO RED CROSS RECEIVED BY W. A. AUSTIN

W.A. Austin of Didsbury was among those awarded honorary memberships in the Canadian Red Cross Society at a special ceremony in Calgary last Friday, when Lieut.-Gov. J.C. Bowen made the presentations.

His reason for being so honored is the citation:

Mr. W.A. Austin has been associated with the Society since 1925, and in addition to being an officer of the Executive of the Didsbury Branch of the Red Cross for many years, has served on the Council and Executive of the Division since 1928. He has rendered outstanding service for twenty-one years and is still serving as Secretary of the Didsbury Branch and as a member of the Executive of the Alberta Division. His readiness to assist suffering humanity and his complete understanding of Red Cross service has been an inspiration to all who have served with him. He has been interested in the work of the members of the Junior Red Cross and has always given them encouragement.

The awards were made for outstanding service to the Red Cross and in making the presentation Lieut.-Gov. Bowen pointed out that the efforts made by the Canadian people during the war through the Red Cross were a public expression of the approval and appreciation they had for the work done by the Organization. He said countries throughout the world recognized the work done by the Canadian Red Cross Society and during the war and since the war had voiced their appreciation.

Last Saturday's edition of The Calgary Albertan contained a photo of those who had received awards from the Red Cross and Mr. Austin was among the Albertans in the photo.

BANFF-JASPER HIGHWAY CLOSED FOR SEASON

Travel over the scenic Banff-Jasper highway has been suspended for the season, and will not start Friday by officials of the Alberta Motor Association. The road was officially closed last Tuesday, November 1, when the last motorist to go over the route reported it was practically snowed in at the summit.

wartime undertakings the Canadian Red Cross Society has emerged at the floodtide of its strength. That strength must not be wasted. A wide programme of service to the people of Canada, embracing many important fields of endeavor, has been planned. These plans can become reality only with the wholehearted support of the Canadian people. We will be counting on that support when the time comes."

It is planned that the \$5,000,000 budget will finance many peace-time services, including a National Blood transfusion Service, the construction of more Outpatient Hospitals and the maintenance of those already established, as well as other services such as Junior Red Cross, Nutrition, First Aid, Swimming Instruction and Disaster Relief.

The quota allotted to the Province of Alberta will be \$400,000, and, therefore, in order to reach the objective of the campaign, the Province for the Division to invite Branches to accept the quota allocated to them in 1941.

W.M.S. MEETING AT HOME OF MISS E. WILLISON

The Women's Missionary Society of Knox United Church, Didsbury, held their regular monthly meeting Monday evening, October 21st, at the home of Miss E. Willison. Fourteen ladies attended the meeting and a Thanksgiving offering amounted to \$12.50.

At the close of the meeting Miss Willison served lunch.

HARVEST CONTINUES DESPITE INCLEMENT WEATHER LAST WEEK

Following fine weather the first part of last week a change occurred Thursday when a light snow flurry and colder temperatures made harvesting a miserable procedure, although most outcrops in the district were not held up by the light moisture. Another light snow flurry Saturday, which was heavier to the south west, did stop some outcrops from threshing, while others proceeded despite the dampness and cold weather.

Saturday night temperatures dropped to 18 degrees above zero and the weather was raw and cold all day Sunday. In the evening temperatures again dropped and early Monday morning it was 4 degrees above zero. However, true to form, the cold snap was short lived when a chinook wind Monday morning brought rapidly rising temperatures.

Threshing is continuing in the Didsbury district this week and if all goes well the crop should all be harvested within the next week or so. It is now estimated that about 80% of the crop has been garnered in the Didsbury district.

DIDSBURY FARMERS TO GET ELECTRICITY SAYS F. JACKSON

While various districts in Alberta are now petitioning the power commission to establish rural electrification in their areas, the Didsbury district is apparently in line to be one of the first new projects commenced as soon as materials are available. This information was furnished "The Pioneer" by Mr. Frank Jackson, who as U.F.A. delegate, last spring interviewed the Calgary Power Company on the project. The result of this interview, states Mr. Jackson, was that he was assured, on behalf of the U.F.A., that as soon as materials were available the Didsbury district would be one of the first to be provided with rural electrification.

This will be gratifying news to most farmers in our immediate district, and no effort should be left undone to keep before our power company the urgent need for this farm service.

YOUTH FOR CHRIST NIGHT AT OPERA HOUSE SUNDAY

Ray Osterhouse, radio artist from Carthage, Illinois, musician extraordinaire, will be the featured artist at the Youth For Christ program to be held at the Didsbury Opera House on Sunday evening, November 3rd, commencing at 9:00 p.m. The gathering will be held for lowering church services, and doors will open at 8:45 p.m.

Mr. Osterhouse will speak, sing and play the guitar, sax, trombone, sleigh bells, Victor Theremin, musical glasses and Swiss hand bells.

An outstanding musician, Mr. Osterhouse has been in 47 States and Mexico, and is now in Canada on the Youth For Christ program.

Be sure to come and bring a friend.

MR. RAY OSTERHOUSE

LOCAL HUNTERS SECURE BAG OF 15 PHEASANTS IN ONE DAY'S OUTING

Many pheasant hunters in Alberta report small bags of game this year, but not for four of our local nimrods who journeyed to the Irricana district last Thursday in quest of the much-coveted ring necks.

Len Bensch, Ed Watkins, Dr. McFetridge and Jake Glauert reported an excellent outing last week and returned with fifteen nice pheasants secured in the day's hunt. They found birds fairly plentiful, but elusive, although careful aim on the part of the local sharpshooters resulted in a good bag, and the party returned in the evening, quite satisfied with the results of the day spent in field and brush.

DIDSBURY HOSPITAL BIRTHS

Born, to Mr. and Mrs. Tony Garceau, on Friday, October 25, a daughter.

And Mrs. Jeffery Campbell, on Monday, October 28, a daughter.

To Mr. and Mrs. Clarence Spicer of Carstairs, on Tuesday, October 29, a son.

C.G.I.T. INITIATION PARTY GRUESOME BUT ENJOYABLE

Twenty-one new members and leaders were initiated into the various C.G.I.T. groups last Wednesday in a hilarious and co-ordinating party. The girls to be initiated met at the United Church at 8 o'clock dressed in long flannel nightgowns and wearing stocking night caps.

They were led separately and blindfolded into the dimly lit basement which was decorated with black cats, pumpkins and assorted skeletons. After being told a convincing story of a bloody murder they were allowed to dip their hands in the blood and then feel the hair of the victim, in actuality a pair of oil and a bowl of feathers. They then walked barefooted across the bones of old skeletons or corn flakes?

Later they were led into the "Chamber of Horrors" where they were met by the door by a fierce black bear (an animated rug), and then allowed to see the corpse of one of Bluebeard's wives.

The empty eyes of a skull wearing fresh remains and a cold and slimy pet salamander caused near panic.

After being led up town by a circus parade, the girls were asked to wash the windows of the New Coffee Kounter with tooth brushes. Back at the church the girls played a game of hide and seek. A buffet lunch was then served and the C.G.I.T. left for home proclaiming the party a huge success.

MOUNTAIN VIEW NOTES

Mrs. William Birdsall arrived back from the coast recently.

Mrs. Guy Sunberg of Carstairs visited with her sister, Mrs. Dawson, on Sunday.

Mr. and Mrs. Barney Elliott celebrated their first wedding anniversary in Calgary on Thursday.

We hear quite a lot of land is exchanging hands again. Mr. Wm. Birdsall, Mr. Dickau and Mr. Lyons having sold their places.

Don't forget the food sale sponsored by the M.V.W. on Saturday, November 2nd.

Mr. Tom Findlay was in the district last week selling off his sheep.

ALBERTA GOT 792 ARMY VEHICLES IN TWO YEARS

Since War Assets Corporation set up in business just over two years ago to dispose of surplus military equipment, 792 cars and trucks have been sold in Alberta and 13,100 in all of Canada, according to a statement just released.

These were bought for \$94,000 by the federal treasury. War Assets has also sold 3,500 motorcycles, 167 of them in Alberta, for \$582,000.

It has "exported" 1,500 trucks and sold 45 in Newfoundland. British Columbia has received 1,183 cars and trucks, Saskatchewan 747, Manitoba 747, Ontario 5,387, Quebec 2,378, New Brunswick 612, Nova Scotia 916 and Prince Edward Island 135.

"Many times the 13,100 could have been disposed of in Canada if they had been available," said War Assets.

Didsbury & District Buying New Canada Savings Bonds

DIDSBURY-CROSSFIELD HARD SURFACE COMPLETED

The new hard surfaced highway has been completed between Didsbury and Crossfield, connecting up the new road between Calgary and Crossfield which was built last year and motorists now have a good road to travel on between Didsbury and Calgary.

Work is continuing on the new road between Didsbury and Olds, and from Olds to Innisfail, and it is expected that the hard surfacing of this section of the Calgary-Edmonton highway will be finished this fall.

FUNERAL SERVICES HELD THURSDAY FOR JOHN R. CAITHNESS

Funeral services for John Reid Caithness, who passed away suddenly in Didsbury on Tuesday, Oct. 22nd at the age of 36 years, were held Thursday afternoon at 2:00 o'clock from the Knox United Church, Didsbury. Rev. D. Whyte officiated and pallbearers were Herb Sinclair, Wm. Spence, Ole Carleton, Ivan Weber, Vern Gillrie and Clint Reiber.

Surviving are a brother, James, Didsbury; two sisters, Mary of Algrove Sask., and Annabelle of Toronto; one half-brother of Carberry, Man., and a half-sister at MacGregor, Man.

Interment followed in the Didsbury cemetery with Orme Funeral Chapel in charge of arrangements. Born at Wellwood, Man., of Scottish parents, John Reid Caithness farmed at Wellwood until 1928, when he moved to Tisdale. After four years there he came to Didsbury in 1932 to reside.

He was an ardent horseman and had driven harness horses on many of the race tracks in western Canada, and at the Lions Jubilee here in August he was among the drivers in the racing events.

MELVIN NEWS NOTES

On Tuesday afternoon, October 22nd, Mrs. Emil Knutsen entertained a group of friends at a shower in honor of Mrs. J. McIntosh (nee Ivy Jackson) whose marriage took place in September. The bride was the recipient of many lovely and useful gifts for which she thanked her many friends. The best wishes of all go with Ivy to her new home near Drumheller.

The teachers' convention will be held at the Palliser Hotel, Calgary this Thursday and Friday and local pupils are looking forward to a two-day holiday.

Vance Shields was in Calgary Monday and brought back a new Mercury truck, minus the tires.

Didsbury High School students held a jolly dance in the Lions Hall on Friday evening last under the direction of the school teachers. Music was provided by a phonograph and lunch was served before the students left for their homes at midnight.

Wage Agreement Increases Price of Canadian Domestic Coal

Following approval by the National War Labour Board of the new wage agreement between the United Mine Workers of America, District 14 (Western Canadian and mine operators, the Wartime Prices and Trade Board has approved increases in the price of coal produced in Alberta and British Columbia mines.

The general average increase at the mine will be \$1.00 per ton except on Vancouver Island where it will be \$1.50 per ton. When applied to the various sizes of coal sold to the consumer these general increases will be as follows: Lump coal \$1.00 to \$1.40; Egg \$1.00 to \$1.50; Nut 50c to 10c; Stoker 60c to 1.50. The increased cost to railways and industrial users of western bituminous coal will amount to 85c per ton.

Board officials explained that "Many times the 13,100 could have been disposed of in Canada if they had been available," said War Assets.

Local investment brokers and salesmen report a ready sale for the new Canada Savings Bonds in Didsbury and district, and while figures are not being divulged by the bank, it has been unofficially reported that sales of bonds here have surpassed the \$30,000 mark, with applications still being received.

Canada Savings Bonds are intended solely as a convenient form of personal savings, and in comparison to other forms of savings, has much to recommend them. The safety provided by the backing of the nation's resources, plus the feature of immediate redemption at 100 cents on the dollar is an attractive combination in any security. Coupled with these features, the rate of 2 1/2% is a fair return and is not approached by other comparable forms of saving or investment available today.

The loan period will end within the next few days and local citizens who have personal savings anywhere from \$50 up to \$2,000 would be well advised to make their purchase of bonds at once. Bank interest is only 1 1/2%. Canada Savings Bonds pay 2 1/2%. Why keep your money in a savings account?

NOTES FROM THE EAST

Don't forget the dance at the Lone Pine Hall this Friday. Everybody come.

Ladies of the Lone Pine W.I. will meet at the home of Mrs. Ruth Eckel on Saturday, November 2nd. Please bring quilt blocks. All members please be present to make last minute preparations for the bazaar. This week's sale of window of several threshing outfits and we are all very thankful to be finished. We also have for continued good weather and all everyone has completed their threshing.

Mrs. R. Shells returned from the Didsbury hospital on Friday last, but will not return to teach at Hunt Cliff school for another week.

Mr. S. Brander made a trip to Calgary on Monday with a load of cattle.

Mrs. S. Brander and family were visitors at the home of Mrs. Joe Clarke on Thursday.

Friday night of this week is Hallowe'en night and the Gobblins will be out on parade. Ladies, have your cookie boxes filled and a few apples or goodies on hand for them. Pat Coates has commenced his business with his grain cleaner. He is now at the Fred Metz farm.

Miss Evelyn Dowell spent the week end with her mother.

Miss Esther Elbert spent the week end at her home.

Mr. and Mrs. H. Shells and son left for a week's visit at the home of Mrs. Shells' parents at Landline, Alta.

Sunday night phones in the district were ringing and ringing trying to get a message through from the hospital saying that Miss Leota Straub was very ill and that an operation would be necessary. We are pleased to report to friends and neighbors she is coming along very nicely.

Don't forget the W.E. Brover Auction Sale to be held on Thursday, November 7th, starting at 11 o'clock in the morning. See advertisement on page four of this issue of The Pioneer.

THE PICK OF PIPE TOBACCOS

Immigration Policy

THE SUBJECT OF IMMIGRATION is receiving a great deal of attention in Canada today. It came up frequently in debates during the last session of Parliament, and at that time it was announced that an inter-departmental committee was preparing a post-war immigration policy. The matter was also brought up in the Upper Chamber, when the Senate Immigration Committee brought in a report in which it was urged that a vigorous policy of selective immigration be commenced as soon as shipping space becomes available. It also stated that the subject of immigration is of the greatest importance to the people of this country "if we are to hold our place abroad and improve and maintain our standard of living at home."

Little Hope For Future

Canada has some 3,500,000 square miles of territory including large areas where there are valuable resources and rich land waiting to be developed. In view of these facts, the question has frequently been raised as to whether the present population of 12,000,000 people can expect to remain in exclusive ownership of so much land, when in other parts of the world overcrowding and many industrious, deserving persons, look to the future with little hope if they must remain in their present surroundings. Those who favor an extensive immigration program, stress that it must be on a highly selective basis and that all those admitted must be the type of people who would be an asset to the Dominion.

Changes Made In Regulations

In 1931, when there was widespread unemployment in Canada, the immigration laws were amended, and unrestricted immigration was limited mainly to British subjects, citizens of the United States, and a few others in special categories. These regulations are still in effect, although recently arrangements were made to admit relatives of Canadians from foreign countries, if the Canadian relatives can guarantee to provide for them and arrange for their accommodation. It was also decided to admit some 4,000 unmarried Polish veterans who had fought in company with the Canadian Army in Italy. These men were brought into Canada on the understanding that they would work on farms for at least two years after their arrival. There is a strong opinion among many individuals and organizations throughout the Dominion in favor of a selective policy of immigration which would build up the population, settling our unemployed and providing wider domestic markets for the products of our farms and factories. There will be great interest shown in whatever action is taken in regard to this matter during the coming months.

Price Control And Rationing Information

Q.—What are the numbers in ration book five of the ration coupons which will not be declared valid?

A.—The following coupons in ration book five will not be declared valid: R22, R23, R24 and R25 which were exchanged for butter, and Q3 to Q25, which were used for the purchasing of meat.

Q.—Is the paper situation really as serious as our merchants would like us to believe?

A.—The paper bag and wrapping paper supply is very serious, and will continue to be for some time. Housewives can greatly co-operate with the merchants by always carrying a shopping bag when they go shopping. Fruits, vegetables, canned goods and packaged goods can be packed in the shopping bag without additional wrapping paper.

Q.—Several months ago, we are given priority on a new car. Now the dealer tells us that the priority certificate is of no value, and that he may sell his car to anyone he pleases. Is this correct?

A.—Yes, your dealer is correct. Regulations governing priority certificates and the distribution of new cars were lifted as of August 15, 1946.

Q.—I have an error in my new ration book. Should I return it to the local ration board in my district?

A.—Return your book immediately to the local ration board for adjustment.

Q.—Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

High-Speed Building

Houses Are Constructed In Record Time Under New Method

A new system of high-speed precast building which enables houses to be complete within one week has been introduced by a Sheffield, England, engineer-builder. The technique involves the use of molds of steel casting, which turn out cellular concrete sections faced with imitation brick, stone chippings or pebble like pieces of jigsaw all dovetailed to make a rapid and complete fit.

To Keep Witchcraft

Home Secretary Says This Is No Time To Repeal Act

LONDON.—Home Secretary Ede says this is no time to think about repealing the Witchcraft Act of 1735. The act might come in handy to check "unscrupulous exploitation of personal loss and bereavement," he told the Spiritualists Union, which had protested that the law hampered mediums. Mr. Ede assured the mediums they need fear no prosecution unless there was evidence of "fraud or imposture."

ROYAL FAST RISING DRY YEAST

IT CERTAINLY TAKES THE WORK AND WORRY OUT OF BREAD BAKING!

NEW Faster Acting ROYAL Ends Overnight Bothers—Risk!

NEW Fast Rising Royal is here! The modern baking discovery that lets you do all your baking in a few hours . . . by daylight! No "setting bread the night before—no baking disappointments because dough spoils during the night when the kitchen temperature changed. New Fast Rising Royal is ready for action 10 minutes after it's dissolved in water!

And the rich, home-baked flavor of bread baked with New Fast Rising Royal will make your family brag about your baking more than ever. You get 4 packets in each carton of New Fast Rising Royal—4 large loaves to a packet. Stays full-strength, ready for immediate use, for weeks on your pantry shelf. At your grocer's—now!

SMILE AWHILE

Jones: "Heaven bless him! He showed confidence in me when the clouds were dark and threatening." Robinson: "In what way?" "He lent me an umbrella."

Don't worry if your job is small. And your rewards are few; Remember that the mighty oak Was once a nut like you.

"What makes you look so dirty?" asked the neighbor. "Well," replied the little lady of five, "you gave my brother a dime yesterday to wash his face."

At a local concert for the troops an amateur soprano "obliged". She sang or, rather, she warbled all over the notes.

At the finish there was a short silence, broken by one or two hand-claps. Then a husky voice came from the back seats: "Now, give us the 'All Clear', missus."

Caller: "I am so sorry your mistress is cut. Do you think she will be at home this evening?" Maid: "She'll have to be; it's my night out."

Tourist—Pardon, sir, but what do you mean with that corn? Farmer—Well, we eat what we can and what we can't we can.

Tourist—Oh, I see. Tourist's Wife (to husband)—What did he say, dear? Tourist—He said, "they ate what they could, and what they couldn't they could."

The teacher had recited "The Landing of the Pilgrims." Then she requested each pupil to draw from his or her imagination a picture of Plymouth Rock.

Most of them went to work at once, but one little fellow hesitated and at length raised his hand.

"Well, Willie, what is it?" asked the teacher.

"Please, m'am, do you want us to draw a hen or a rooster?"

Binks: "I'm the happiest man in the world. I have the best wife in the country."

Banks: "Well, who wouldn't be happy with his wife in the country?"

Mr. Smith: "Your wife used to be nervous now she doesn't seem to show a sign of it. What did you do for her?"

Mr. Brown: "That was easy; the doctor simply told her her nervousness was a sign of age."

Youthful Father: "Our baby is beginning to recite 'Baa, baa black sheep, have you any wool?'" Solgopher: "And he's only eight months old."

Father: "Well, he doesn't say all of it yet, but he's got as far as the 'Baa, baa.'"

LESS EXPENSIVE

The ancients blamed the planets for their troubles. That was less expensive than maintaining a government to blame things on, says Brandon Sun.

Gazelle Boys

Who Run Fifty Miles An Hour. Now Number Up To Five

JERUSALEM.—Gazelle boys—they eat grass, run 50 miles an hour and speak into the language of their foster parents—are enlivening this year's silly season in the Near East. First reported in Trans-Jordan some weeks ago, the gazelle boys now number five. Each story is a little better than the last one.

The original report was that three hunters seeking the gazelle—an antelope with large, friendly eyes—had found a 14-year-old boy living with a herd. They gave chase in a car going 50 miles an hour, captured the boy and took him to a hospital where he would eat nothing but grass and munched fortifically. The story was told in Palestine and Trans-Jordan bars and found its way into print.

Later it was learned the boy was the son of a Bedouin family living in the neighborhood and was mentally deficient. He is now in a hospital. He doesn't eat grass.

The other Gazelle boys subsequently turned up in Trans-Jordan, Iraq, Syria and Lebanon. One, the wages say, is being trained by oil companies to do a 50-mile-an-hour pipeline patrol. Another, according to the latest story, is being taught English by professors at the American University at Beyrouth, so they can learn what the Gazelles talk about besides bave.

Uniform Trouble

Vancouver New Police Are Forced To Wear Plain Clothes

VANCOUVER.—The clothing shortage is interfering even with the city police department.

Board of Police Commissioners has learned that it takes "three, four or five months" to get new police uniforms.

"We have our new men going around in plain clothes, and we can't use them properly that way," said Police Chief Alex McNeil.

GEMS OF THOUGHT

DEEDS

Not by birth does one become an outcast.

Not by birth does one become a noble. Through deeds it is that one becomes an outcast.

Through deeds it is that one becomes a noble. But.

Goodness and philanthropy begin with work and never stop working. All that is worth reckoning is what we do, and the best of everything is not for good, but is economy and riches.—Mary Baker Eddy.

Let us decide honestly what we can do, and then do it with all our might.—Amelia D. Barr.

It is the little things well done that go to make up a successful and truly good life.—Theodore Roosevelt.

Every man feels instinctively that all the beautiful sentiments in the world weigh less than a single lovely action.—James Russell Lowell.

I must do something to keep my thoughts fresh and growing.—James A. Garfield.

Used to Wake Up with a Headache

Now Fresh and Lively Every Morning

Here is a man who woke up most mornings with a dull headache. What a dismal way to start the day! But Kruschen transformed his life, according to his letter:

"I used to wake up in the mornings with a dull headache. A year ago, I started taking Kruschen Salts regularly. Today, I wake up fresh and lively and can do my day's work without undue exertion. I find Kruschen Salts a great help, and have not been so lethargic for a long time. I can recommend Kruschen for anyone suffering from headaches and constipation. I'll never be without Kruschen as long as I live!—E.P."

Dull headaches such as this man suffered from can often be traced to a disordered stomach and to constipation because of waste material which remains in the system. A small dose of Kruschen taken regularly in the morning promptly helps to remedy this condition. And that is how Kruschen acts to relieve such headaches.

Try Kruschen for relief of morning headaches and sluggish feelings. 25¢ and 50¢ at all drug stores.

Bagpipes Popular

Scottish Tourist Committee Believe They Are Attraction To Tourists

EDINBURGH.—The music of the bagpipes was advocated as an added attraction for visitors to the land of the heather and the mist.

Tourist-seeing, Scots, said, however, that salmon, venison and trout might prove more palatable to the alien than the native haggis—a sort of pudding of offal, oatmeal and spices.

The importance of the bagpipes to the tourist trade was emphasized in a report by the tourist committee of the Scottish Council on Industry published recently which added that Scottish music and displays of Highland dancing would prove "a very popular form of entertainment."

The Prince Albert coat was named not for the consort of Queen Victoria but for the oldest son, later King Edward the VII.

An ordinary meeko travels two or three feet.

Housekeeping In The Future Will Be Made Easy By Many New Devices Being Planned

At the moment the vital need is to get sufficient homes of reasonably good standard to ensure that everyone may enjoy privacy and health. But once the basic of this is broken it will be possible to look forward to homes in which a steady stream of new materials and new devices will greatly lighten the task of the housewife and make housekeeping a matter of two or three hours' work a day instead of a drudge from dawn till dusk.

The house of the future will require little or no dusting, and the brush and pan may be relegated to museums.

There will be no dust, because it will be automatically collected before it has time to settle. This will be done by a simple electronic device already in use in some factories for collecting dust produced in manufacturing processes.

The principle is that by which objects bearing opposite electrical charges are attracted to each other. The dust particles are given a positive charge and a small electronic device, using a trifling amount of current and easily concealed in the ceiling, is given a negative charge.

It attracts the dust particles of it, and they are thus collected before they can settle. The housewife's dusting will be limited to emptying the dust container every few days.

The kind of dirt that is brought into the house on shoes or results from accidents or wear will be reduced and much more easily removed by new devices and methods. For instance, on the doorstep there will be a mat, but a new kind which moves rapidly and automatically cleans the shoes.

A person entering the house will simply touch a button for a few seconds and his shoes will have all the dirt removed. It would be simple to arrange so that the weight of anyone coming in would automatically set the brushes in movement during the few seconds required for the door to be answered or the key to be found.

Furnishings materials will be water and dirt proof. Cleaning the curtains will be simply a matter of wiping them over with a sponge as they hang. Upholstery will be cleaned in the same easy way. And if your child spills ink or gravy on the best tablecloth it will roll harmlessly to the floor, which, covered in stain-proof carpet, will be quite undamaged.

Even windows may be kept clean automatically, either by the application of a grease-releasing chemical or an electrical device that will repel dust and dirt particles.

Incidentally, windows will probably have a high-frequency device that will "electrocute" all flies and insects as they try to enter.

Cooking will be very much simplified by the use of electronic ovens, already being used for some industrial materials and which require "baking". In the electronic oven there are no flames or red-hot wires. The heat is produced internally in the article being cooked by "radio" waves.

The advantages are many. First, there is speed. A joint and two vegetables could be cooked within five minutes of being put in the oven. Meat will be cooked evenly all through, instead of from the outside towards the inside. There will be no more dishes burned outside and raw in the middle!

This will be particularly valuable in the case of bread. It will be possible to decide the exact depth of cooking desired, and leave the oven to switch off automatically when the right point has been reached.

This method of cooking will result in meat being more tender, and there will be less "drying-up".

The housewife of the future will certainly have a "deep-freezing" section in her larder. In this meat, vegetables and fruit will keep safely for weeks or months. Peas, strawberries, chicken or whatever it may be, will simply be placed in the container and taken out six or twelve months later for use as required.

For entertainment in the housewife will have a "big screen". Television will also serve her in other ways. For instance, there might be a television screen in the kitchen automatically recording the picture of any one on the front doorstep.

An automatic television camera at the end of the child's cot will enable a mother to sit comfortably in another room "keeping an eye" on the baby on a portable screen.

Instead of having to get up to turn the radio on to another program she will be able to "dial" from where she is sitting whatever station is required.

Radio may have "selecting" fittings enabling the owner to pick out the programs required at the beginning of the day and to "set" them ready.

The telephone will be immensely improved. If it is left unattended it will automatically explain to callers that the owner is out and take a message which will be repeated to the owner on his return.

Telephones are already in use which will light a stove ready for the owner. It will be possible for the housewife or business man to call

their home from a transmitter weighing only a pound or two while walking in the street or travelling by train.

Apples For Britain

British Order For Canadian Fruit Is Largest Since Before The War

Canadian apple growers are harvesting bumper crops this Fall and, furthermore, they have a market in Britain. In discussing new food contracts which have been negotiated with the British Government, Mr. Cadogan, the Minister of Agriculture, did not go into the matter of prices, but it may be taken for granted that Canadian producers will profit nicely while contributing to Britain's stores.

The basic apple contract calls for more than two million boxes of British Columbia apples and three hundred thousand barrels of Nova Scotia apples, plus any further quantity the latter source can provide. And that is the biggest order from Britain the apple men have enjoyed since the years before the war, when approximately half of their annual production went overseas. Final statistics on this year's crop are not available yet, but the British order is described as a "considerable percentage" of the available crop.—Montreal Star.

Items Of Interest

Experts have completed a study of the effects of color on children's work in school, and have come up with the decision that classrooms painted yellow or pale green do most to encourage study.

It is believed the poloniums listed first described by a London physician in 1784.

Smallest electric motor in the world, made by Robert Stanley Lewis, retired English engineer, is not much larger than a pinhead.

Key West, Fla., has one street which runs from the Gulf of Mexico to the Atlantic ocean. It is Duval street.

The retina of the human eye is only about one-eighth of an inch thick.

Peter the Great of Russia could not read or write until he had been czar for five years.

The longest elephant tusk of which there is authentic record is 11 feet, five and a half inches long, and 18 inches in circumference.

The cost of food of Columbus' expedition was fixed at six pascas a month per man each, or about four or five cents daily.

WHOLESALE FORGERY

Secret printing presses in Germany are turning out a flood of bogus travel permits and documents for sale to soldiers seeking illegal leave, to displaced persons wishing to move out of Germany, and to German civilians masquerading as allied nationals, the London News Chronicle reported.

— Duffy in The Baltimore Sun.

Have A Grievance

Exkimos Claim Visit From White Men Always Brings Common Cold

VANCOUVER—The Royal Canadian Mounted Police patrol boat, St. Roch, arrived back here recently after an absence of 18 months.

The ship left here in the summer of 1945, under command of Sub-Inspector Larsen, and sailed to Cambridge Bay, far inside the Arctic circle. Here it served as headquarters for the crew as they patrolled the Arctic by dog-sled. Aboard the St. Roch on the return voyage was Constable A. C. Levens, 25, of Alberta, who had not been "outside" since 1942. His patrols ranged 1,000 miles and took up to 40 days at a stretch.

The 40-man crew reported that Eskimos around Cambridge Bay have a grievance against the white men. The common cold was unknown to them before their coming. "They never catch a cold except when an aircraft arrives with the benefits of civilization," said engineer George Peters of Victoria. "We also never had one until we made contact with Operation Muskox, then we all had colds."

Speaking for his crew, Inspector Larsen said: "I guess the Arctic is a place you want to go back to. Every time spring comes I want to be off again." As winner of the Patrons Medal of the Royal Geographical Society for his 1942 cruise through the northwest passage, he should know.

"Breeches Bible"

British Columbia Archives To Be Custodian Of Rare Book

VICTORIA.—Placed with the B.C. Archives for safe keeping by John L. Ward of Kamloops is a copy of the "Breeches Bible", printed in 1615, and a King James prayer book printed five years before.

These books are rare. The bible is highly valued by collectors of ancient books because of the passage in Genesis 3, verse 7, describing Adam and Eve in the Garden of Eden following the eating of the forbidden fruit.

It says, "They sewed fig tree leaves together, and made themselves breeches," it is the only issue of the Holy Writ that carries the word "breeches" and has become named by that word.

A Hapless Male

Was Routed Out From A Butcher's Counter By A Woman Customer

PHILADELPHIA.—An unidentified man seeking to buy meat was routed empty-handed by a housewife who struck him over the head with a leg of lamb.

The leg of lamb, placed on the counter by a butcher, was the only meat in sight of about 100 customers jammed into a narrow aisle. Both the man and woman snatched for the leg.

The woman got the firm grip and after a short struggle had exclusive possession and brought the cut down over the man's head. Other women jeered him. The hapless male gave up and walked out.

JAM BRINGS HIGH BID

KANSAS CITY.—A jar of regular dudson plum preserves with a special label brought a high bid of \$2 at the Woman's City Club annual harvest festival here. The preserves were contributed by Mrs. Harry S. Truman and bore a White House label.

If you keep your dustpan well waxed, you will find it always looks clean, and the dust and dirt slip from the pan more easily.

Division Of Entomology Visits North West Territories To Check On Insect Pests

IN the course of a visit of inspection of the North West Territories to check on the prevalence of insects, insect control, and incidentally of vegetable production, crops, markets, and other related agricultural conditions, Alan G. Duxton, Division of Entomology, Science Service, Dominion Department of Agriculture, compiled much valuable information. On the journey north the places visited were Fort Smith, Fort Resolution, Hay River, Yellowknife, Fort Radisson, Fort Norman, Fort Good Hope, Aklavik, and the Reindeer Settlement on the Mackenzie Delta.

On the return journey up the Mackenzie River, Fort MacPherson, Norman Wells, Fort Simpson, Trout River, Fort Providence and other points were the places inspected. Due to accommodation difficulties, some nights were spent in R.C.M.P. barracks, boat houses, laundries, igloos, airport bunkhouses, and other unusual places.

As it happens insects are most numerous in the North West Territories in years of drought. This year, the season has been a comparatively wet one, so Mr. Duxton found that insects in gardens were extremely rare. In fact no insects were found in any garden until Fort Simpson was reached on the return journey when grasshoppers were discovered invading gardens and the red turnip beetle appeared on a variety of plants. The only explanation of the general scarcity of insects, says Mr. Duxton, was that the season was a relatively wet one and most gardeners stated that insects were of importance only during seasons of drought. Traces of insect damage were discovered at Fort Smith where the work of cutworms was evident, and at one of two settlements where injury by the cabbage maggot could be detected.

In discussing insect conditions in the average years with the growers, the story right along the line seemed to vary very little. Grasshoppers in most cases were regarded as insect enemy No. 1, with the red turnip beetle a close second. Then followed cutworms, cabbage maggot, and the imported cabbage worm which caused considerable damage to cruciferous crops, of which many varieties are grown in the North.

There appeared to be no insects attacking potatoes, and, says Mr. Duxton, it was a strange sight to one from outside to see this crop growing fresh and green without any evidence of insect damage, although no spraying and dusting had been carried out. The growers have to do a lot of potting the potatoes in the spring and dig them up in the late summer. Seed potatoes might be grown with success in the Territories.

One of the surprises in the North West Territories is the number and extent of some wonderful gardens ranging from 10 to 20 acres to 15 acres; also the number of greenhouses was remarkable. Most of the crops were excellent and undoubtedly were given great care by their owners. But there is no need for a planned course of insect control. Owing to the great distances and the naturally high freight charges, insecticides are practically unobtainable locally, and spraying equipment is virtually non-existent. Hence little can be done in the way of insect control when outbreaks occur.

Key To Longevity

Could Be Attained By A Better Knowledge Of Nutrition

The stress and strain of modern living, which is largely responsible for the prevalence of such different ailments as arthritis, angina pectoris and gastric ulcers, because of the over activation of the important adrenal and pituitary glands, may be counteracted by dieting. Dr. Hans Selye, director of the Institute of Experimental Medicine at the University of Montreal, told members of the Council of the Sugar Research Foundation and a large number of guests at a dinner held in Montreal.

Dr. M. Rabinowitch, director of the Department of Metabolism and Toxicology at the Montreal General Hospital emphasized, in his address, that while man's organs were designed to function twice as long as the average span of life according to present day standards, before that goal could be achieved there must be attained a better knowledge of nutrition. "Specialists in nutrition realize they are just on the threshold of knowing how to use foods for the greatest benefit," he declared in the course of his address. "There is no chemical, physical or physiological reason why the average adult should not live 110 or 115 years at least," he added.

TRIP FOR CHILDREN

Two hundred children from England's industrial midlands left London recently for Switzerland, where they will spend three months with Swiss families. Some planned to become expert skiers, but one little girl said: "I am going to eat so much that I shall be too fat to get into the train when I come back."

Expert tea tasters can distinguish between hundreds of different kinds of tea and tell in a few moments in what particular region it is grown.

SEA SHELL QUEEN — Weston Jayne wears a big smile, a little bathing suit and has a firm grip on a sea shell. The latter comes into the picture because Weston has just been named Sea Shell Queen at the St. Petersburg, Fla., beach frolics.

Started The Idea

Canadian Who Developed International Peace Garden Died In Kingston

Henry Jackson Moore, 67, of Islington, Ont., developer of the International Peace Garden on the Manitoba-North Dakota boundary, died in Kingston, Ont. He was an associate of honor of the Royal Horticultural Society of Great Britain and a graduate of the Royal Botanical Gardens at Kew, London. He came to Canada in 1909.

The National Association of Gardeners adopted Moore's idea of an international peace garden in 1939 and undertook to raise \$5,000,000 for this memorial to a long-peaceful boundary. Mr. Moore, then with the Ontario Department of Agriculture, became secretary of an international committee. North Dakota and Manitoba set aside more than 3,000 acres between Bismarck, Man., and Dunsmuir, N.D., for the purpose and the peace garden was opened in 1952.

Bobby-Sox Doll

by Alice Brooks

The teenager will want to be right in the groove and make this bobby-sox sweater girl sit right on her bed. The perfect mascot. Miss Bobby Sox has the wardrobe musts of sweater, skirt, and date dress. Pattern 7116 has transfer, directions for doll and her outfit.

To obtain this pattern send twenty cents in coin stamps cannot be accepted) to Household Arts Department, Winnipeg Newspaper Union, 175 McDermott Avenue E., Winnipeg, Man. Be sure to write plainly your Name, Address and Pattern Number.

WILL BE RETURNED

Gold stolen by the Nazis in the allied countries during the war will be given back by a tripartite commission formed of representatives of the United States, Britain and France. Russell H. Dorr, American delegate, said the estimated value of the gold stolen by the Nazis exceeded \$700,000,000.

SARINIA DRILLERS HIT GAS POCKET—Drilling for water near Sarin, Alta., operators were surprised when bit hit natural gas pocket at 145 feet which blew in this "gusher" with a roar and sent rock, sand and water 200 feet over their rig. The well continued spouting at intervals for hours.

HALLOWEEN

Tomorrow night, October 31st is
Halloween and no doubt, as in
years past, the children are look-
ing forward to a big time. Probab-
ly not the times that the parents
had in their younger days, when
they thought that they were privi-
leged characters on this one night
of the year, but a good time. The
present day children like to dress
up and make the rounds for Hal-
loween handouts, and if they put
up a good entertainment for the
householders they are usually re-
warded.

We do not want to see the Hal-
loween fun discontinued, for tradi-
tionally it is part of our year's ac-
tivities, but we do not want to see
willful damage and spiteful acts
substituted for good, wholesome
fun.

School teachers and parents
should warn the boys and girls
against property damage, explain-
ing that if apprehended they will
face court action and damage
claims, which are not only a mark
on their character, but a disappoint-
ment to parents.

Children, by all means have a
good time on Halloween, but re-
frain from doing property damage
and other little acts that annoy
townspeople.

To the teen-age youths and over-
grown kids, all we can say is that
if they haven't enjoyed it, let
their age they do not seem to be pro-
secuted to the extent of the

law, and our town police will
be out in force to keep a close
check on anyone prowling around
after dark.

LETTER TO THE EDITOR

Dear Mr. Editor,

Recently I received a letter from
Lady A.N. Duff of London, asking
me, on behalf of the Victoria
League, to find correspondents for
their members.

The Victoria League, I am in-
formed, was founded in 1901 to
promote goodwill and friendship
among the people of the British
Commonwealth of Nations, which
is done by exchanging letters and
papers with persons of other lands.
Sir Alfred Zimmerman, an ex-
pert on international affairs, is re-
ported to have declared, when as-
ked what is the greatest obstacle be-
tween us and an enduring peace,
"The small-scale individual."

It seems to me that correspond-
ing with someone from another
country, and thereby promoting
friendliness and goodwill, is a con-
crete way in which the "small-
scale individual" who usually in-
sists that he can do nothing to fur-
ther peace, can take an active part
in doing that very thing.

A pen and ink visit with another
world is bound to be interesting—
and stimulating—and enlighten-
ing.

I have received a letter from Miss
Bessie Lowe, 107 New Brook Road,
Over Hutton, Bolton, Lancashire,
England. Miss Lowe is principal of
a primary school and would like a
correspondent. She has sent me
some English papers which I will
forward to anyone interested.

Miss Florence Meath, 184 South
Street, Princess Park, Liverpool 8,
England, is 16 years old and wishes
to correspond with a Canadian.
Miss A.B. Morgan, 19 Blundell
Drive, Southport, England is an-
other girl about 16 who has sent me
the Girl's Own Magazine, to be
given to anyone interested in
writing to her.

Anyone interested could write
direct to these persons, or I will
forward their letters.

Yours cordially
MARJORIE K. STILES

1946 POTATO CROP

Production of potatoes in Canada
this season is estimated at 44,628,
000 hundredweight from 320,600
acres, or an average of 136 hundred-
weight per acre. This is an increase
of 24 per cent over the 1945 crop.

WESTERDALE NOTES

(Too late for last week)
A miscellaneous shower was held for Mrs. J. McIntosh (nee Ivy Jackson) at the home of Mrs. W. Herbert on Thursday last. A most enjoyable afternoon was spent at making a bride's book. A mock wedding ceremony performed by three of the ladies was greatly enjoyed. The gift wagon was beautifully made in the form of a large doll dressed as a bride, and contained many lovely and useful gifts. Mr. and Mrs. J. McIntosh of Munson visited at the home of Mrs. E. Jackson last week. Mr. McIntosh returned to Munson last week, while Mrs. McIntosh remained here till this week.
Mr. E. Jackson is expecting to leave for England this week.
Mrs. A. Bolton of Olds had the misfortune to fall down the cellar at the home of her son Sunday last and suffered a fractured rib.

RATES NOW IN EFFECT

Effective immediately, gift parcels from Canada for the United Kingdom containing food and other articles may be sent under normal conditions and up to the usual 20 pound weight limit. Parcels must be marked as gifts and unsolicited.

BERGEN NEWS NOTES

Mrs. Esther Clemens visited her daughter in Edmonton over Thanksgiving Day.
Mrs. Lena Lees will teach school at Torrington.
Leslie Lyle had the misfortune to get his leg badly cut while swamping logs. He fainted several times from loss of blood, but he is now recovering in the Olds hospital.
Rev. "Herb" Robinson and wife, and John Haug will attend the quarterly conference in Calgary on Thursday and Friday.
Iva MacCue is training for a nurse in one of the Calgary hospitals.
Murray Clarke has bought the Clare B. Post place southwest of Bergen and has moved there.
Sixty friends and neighbors of Norman Halvorsen met at his home west of Bergen and surprised him and his new bride by bringing in an overflowing washbasin of beautiful dishes, dainty pillow slips, utensils and pyrex dishes to gladden any bride's heart. A dainty lunch was also served to the guests.

BURNSIDE NEWS NOTES

Mrs. Dawson and Rex were the guests of the Frizzle family at Sunnyslope on Sunday.
Miss Ruth Loughman was taken ill during the week end and removed to the hospital. We hope it is not serious and wish her a speedy recovery.
Mrs. Joe Clarke proceeded to Calgary for further medical treatment last week.
Little Grace Weber is home from school these days, having run a "silver" into her foot. It's hard to tell which bothers her the most, the silver or being absent from school.
Threshing drags out a weary existence in this neighborhood. The snow played pranks here. On Friday it was possible to see an outfit going full blast, not bothered by snow, and half a mile away the outfits being held up.

FALLEN TIMBER NOTES

Howard Steen took his cattle out for the winter. He has a nice herd of white faces.
There is about four inches of snow in the bush at present.
Mr. and Mrs. Geo. W. Hone were Didsbury visitors last week.
Mrs. C.B. Moore held a monthly service on Sunday last in the Fallen Timber school.
Adam has been over the municipal part of our road again with his big machine and the road is in very good shape at present.
Mr. Townsend has sold his beaver farm to Bill Johnson and is moving to B.C.
Bob Simpson has taken out a truck load of cattle for Percy Fair and Pt. Hont. Bill Smith has also taken out a load for John Cooper.
It is a big surprise to hunters that their big game license does not give them permission to shoot deer in this district.
Coyotes are numerous in the neighborhood.

WESTCOTT NEWS NOTES

Mrs. John Jacobsen left last week for Des Moines, Iowa, where she had been called because of the illness of her mother.
Congratulations to the newlyweds, Mr. and Mrs. Gordon Ford.
We understand that both Eileen and Ruby Dageford are making satisfactory progress in health at their home, both having been quite ill for some time.
Some threshing outfits were able to keep running in spite of the snow as very little thawing took place. The thermometer dipped quite low and helped to keep the grain from getting too wet. There are still quite a few farmers in this vicinity however, with not even a bushel threshed as yet.

FORD—ROBERTSON

A fireplace banked with spruce boughs and chrysanthemums and lit with tapers formed the background for the marriage of Jean Elizabeth, eldest daughter of Mr. and Mrs. Jack Robertson of Westcott, and A. Gordon Ford, youngest son of Mrs. H. Ford and the late Mr. Ford of Hanover, Ontario.
The bride, given in marriage by her father, wore a gown of white satin and net with keyhole neckline and lily-pointed sleeves. She wore a floor-length veil and carried a sheaf of dark red roses.
Her only attendant was her sister, Mary, who wore a powder blue floor-length gown of sheer and net with matching chapeau veil. Her corsage was of pink roses.
Mr. Duncan McDougall attended the groom. Bob Hughes and Jack Hildy were ushers and Miss Phyllis Hughes played the wedding music.
During the signing of the register, Margaret, youngest sister of the bride, sang "Dearest of All." She wore a floor-length gown of yellow dainty and a corsage of Talleman roses.
At the reception following the ceremony, Rev. Whyte Smith, who had officiated, proposed the toast to the bride, and Mr. Alex Robertson sang "Because."
Mr. and Mrs. Ford left by motor for Calgary and Banff. For traveling the bride wore a dress of rose wool with a gray topcoat and black accessories.
On their return they will live in the Westcott district.

**SHOWER HELD FOR MISS
JEAN ROBERTSON, OCT. 19**
Mrs. Paul Good of Jackson was hostess at a kitchen shower Saturday afternoon, October 19th, in honor of Miss Jean Robertson, October bride-elect.
The room was decorated in white and yellow bells, and the afternoon was spent in contests and games.
Miss Robertson was the recipient of many lovely gifts and as they were opened each lady made a wish for the bride-to-be.
A delightful lunch closed a very enjoyable afternoon.

Youth Of Europe

Although Spirit Appears Broken Hope Is Seen For Their Salvation

Although the youth of central Europe appear broken in spirit, hope for them lies in such a rallying point as Dr. Hans Lilje, assistant bishop of Hanover, one of the most heavily bombed cities of Germany, the Rev. Wilson E. Bergstrand, youth director of the Lutheran Augustana synod, said.

Mr. Bergstrand, who recently represented the American Lutheran Youth at a world council of churches in Geneva, Switzerland, said a youth religious meeting in Hanover, directed by Dr. Lilje this summer was attended by 20,000 young men and women. Before the war attendance at such meetings was about 3,000.

"Some representatives at the world council of churches were, however, not too encouraged about the prospects of reviving religion among the young," Mr. Bergstrand said. "They themselves were too passive, and like their young compatriots their passivity was caused by physical weariness."

"Despite the despair and passivity among the youth there is still hope for their salvation for daily the church is retrieving some of the lost youth."

THINGS TO COME

ERIE, Pa.—Mosquito-baiting nets for hot weather are within the realm of fashion possibility, Paul Siple, a War Department biographer, told a General Electric science forum audience.

The netting should be held from the body by means of spacers. "Air flow will not be inhibited, but the skin will be protected from direct solar radiation and visibility," Siple said. "This will then permit the maximum utilization of air movement for comfort."

Confucius is believed to have been born in China in 551 B.C. and to have died in 479 B.C.

LIFE can Begin AFTER 40, IF.

Around 40 our energy lessens. But, experience has taught us to do our work with less effort. The years ahead should be the greatest accomplishments, the most enjoyment and happiness. They can, too, if we avoid the kidney and bladder disorders such as Backache, Headache, Rheumatic Pains, Laxitude, Loss of Sleep and Energy which so often attack those around 40. For over half a century Dodd's Kidney Pills have helped men and women to keep kidneys and bladder in good order. If you are near 40 or past it, for the sake of your health and a happier future use Dodd's Kidney Pills today!

OUR COMPLETE SHORT STORY—

When The Fire Falls

By GEORGE KAUFFMAN

Copyright
Wheeler Newspaper Syndicate

THE snows of Austria glowed with an inner warmth as evening came over the Alps. Day always stays longer in the snow than in the soil. Caught within the drifts it lies hidden from the night in a soft radiant light. A girl was skiing down a slope. Her skis cut through the bank like thin rapiers and threw up a flurry of snow as she arched from side to side in the wind. Suddenly she was whipped out of sight and crouched behind a ledge like a snow-rabbit hiding from the hounds. . . . Soon she was joined by another skier, a man.

"The point is," said General Mott, of the Gestapo, "ask leave tracks. Her skis leave tracks. Why don't you follow them?"

Young Captain Kroger hesitated. "Her marks vanish."

"Come now, Kroger. You were ski-master at the Hotel Lunck. What did you do while you taught the fat feline of Austria to ski? Just teach them, it seems. And now many of these same Austrians are skiing over the Alps to Switzerland. This is fine . . . fine!"

Hotel Lunck was the ski-retreat of all Europe. Nestled in a glacial valley the hotel sat in the snows like an old hen over her brood of chicks, chicks which dotted the snow slopes. The past clientele never visited the hotel. The Nazi social set had taken it over, and Goering himself gave huge hunting-skiing parties there for all the European quislings.

The night General Mott arrived to take a personal hand in the affair of the vanishing skis, the staff of the hotel had prepared the traditional Fire Fall, an ageless ritual of the peoples of the Alps. From a hanging wooden burning embers were dropped, filling the evening with fire-shadows.

The General had finished his dinner on the balcony off his suite. "This is splendid," he said, looking at the fire of the brittle glacial air. "One almost forgets there is a war on."

"The war seems very remote in the valleys," said Kroger.

"Then why do the people co-operate with this underground ski-thing?" Kroger remained silent.

"The absence of these Alps have affected even mine Captain, no?"

"Here is the fire-fall, sir," Kroger pointed out over the balcony. From far up the night sky embers began falling down the vast grey glacial walls like fiery serpents.

"Beautiful," murmured the General. "Just like a Nazi torchlight parade."

Then another stream of embers began trailing down the walls. As if pulled down by magnet they began to form a crude V on the night.

"Stop this," shouted General Mott, jumping to his feet. "Hunt them down. Making a fool of me, they. Hunt them down!" He turned to Kroger. "What have you ski-troops for?"

"Go get them. Place guards in all the villages. Shoot any civilian on the slightest excuse!"

Next morning the General was awakened early by his orderly. "We have just received word from below, sir, that they have captured the girl."

"Hil! Splendid!" laughed the General. "And you needn't tell me but the officer in charge was Captain Kroger."

That evening the girl was brought to the General by Kroger.

"Good evening," smiled the General. "I see you are beautiful. Mysterious women generally are. Tell me, why do you help these Jews escape into Switzerland?"

"I help all who can no longer fight you inside Austria," she replied in firm level tones. "They continue to fight you elsewhere. This is no tourist business."

"You mean to say that you are not just helping the rich escape, but also putting out of our reach these

ACIS 2 WAYS TO RELIEVE MISERIES OF BRONCHITIS

Now get real relief from coughs, soreness and congestion of bronchitis—this double-action way that actually

WORKS 2 WAYS AT ONCE
PENETRATES deep into bronchial tubes with soothing medicinal vapors
STIMULATES chest and back surfaces like a warm-hot poultice
KEEPS working for you!

To get all the benefits of this combined PENETRATING-STIMULATING action, just rub throat, chest, and back with Vicks VapoRub at bedtime. Instantly VapoRub goes to work—2 WAYS AT ONCE! It soothes, above-to ease bronchitis coughing, loosen congestion, relieve muscular aches, and speed restful, comforting sleep. Often by morning mucus is gone. Get relief from bronchitis distress tonight with double-action, time-tested Vicks VapoRub. . . Try it!

Showed Gratitude

Skunk Proved It Was Capable Of Showing Appreciation

TORONTO.—Perhaps you never put much thought on the matter, but this story seems to prove that even skunks are capable of gratitude.

At Ontario's Muskoka Lake, a little striped woods pussy was as discreet enough to get his head wedged fast into a quart jar. As he was pulling and tugging under a summer cottage, the owners heard him and came to investigate. They decided to shoot him to put him out of his misery but he got away. A few days later the owner of the house came upon the little skunk, his sore head still encased in the jar. With out stopping to figure out the consequences the woman eased the jar over the skunk's swollen jaws. And the little fellow, with a long look of gratitude, scampered off into the woods, leaving the woman as scent-free as a windy day in April.

"Fardon," interrupted Kroger. "You seem to be out of petrol."

"Impossible," said the General. "My car is always serviced completely. I shot it in the tank." He got out and bent over the gauge.

"A shot crashed out and echoed about the garage like a hollow drum-beat. General Mott slumped to the concrete floor."

A sentry rushed up to Kroger and reported: "Sir, I just shot a man tampering with your car."

"Good work, Corporal . . . I shall remember you for this."

Captain Kroger drove off. Out in the crystal night, clear and bright between the glacial walls, Kroger called back to the car. "Climb up front. We have enough petrol for Switzerland."

Junior Miss Pattern

Slim princess lines of Pattern 4736 emphasize your slender waist. Three sleeve lengths. Easily made. Flat-ironing finished but included.

Pattern 4736 in Junior Miss sizes 11, 13, 15 and 17. Size 13, dress requires 2 1/2 yards 54-inch fabric; hat fabric 1/2 yard fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write to: Miss Anne Adams, Pattern Dept., Winnipeg, New-Style House, 175 McDermott Ave. E., Winnipeg, Man.

MAY LAST INDEFINITELY

H. Moore, secretary of the food distributors told the British United Press in Winnipeg recently that the shortage in wrapping paper and paper bags is not a temporary one but that it may last a long time, perhaps for years. He says the shortage is caused by the unprecedented demand by the building trade and by U.N.R.R.A. He points out that consumers could make their own hold-all shopping bags and suggests nichols, especially for the purchase of fresh meats and other commodities that cannot be handled untrapped.

SUCCESSFUL SEASON

Port Of Churchill Takes Stock After Grain Ships Leave

CHURCHILL, Man.—After the last two grain ships of the year left for England, officials of this Hudson Bay port took stock of its 1946 shipping season and surveyed its hopes for next year.

When the eighth and ninth freighters—the Fort Richelieu and the Hill Creek—sailed they brought the port's wheat exports this year up to an unofficial 2,800,000 bushels, fifth best season in point of number of ships and possibly the third best in quantity of shipments Churchill has enjoyed.

In addition to the wheat, the Dalgleish line ships which called here this season loaded pit props and some miscellaneous cargo after discharging whiskey, curling stones and china. Every carload of wheat or grain sent to Churchill went over the 1000-mile Hudson Bay Railway, a single-track line that cuts through the northern fringes of the Canadian shield and then runs fairly straight over miles of spongy muskeg.

Almost all the stevedores and dock workers here were brought in from the "outside." There were approximately 160 men working around the docks and railway sheds.

Border Crossing

Aviation Conference Asks That Such Passing Be Made Easier

Simplification of border crossing procedures for pilots of private aircraft was urged at the Northwest Aviation Planning Conference held recently at Butte, Montana.

"While the conference felt border crossing should be made easier," Mr. Rundle said, "representatives from both sides felt rarity should be considered. It was stressed that pilots should not fly in strange territory without adequate information of routes."

In this connection, the conference passed a resolution thanking the Canadian department of transport for its work in locating lost American fliers in Canadian territory."

Caseln is processed into paper coatings, wall paints, adhesives, buttons and other products.

Henri Becquerel discovered radioactivity in 1896.

Concrete and cement are not synonymous—concrete is just one of the ingredients of cement.

Facial bones, the article says, could be corrected easily by the use of a plastic that can be molded to required shape. A missing nose or ear could be "masked" with a substance possessing the consistency, coloring and feel of the part to be replaced.

Dr. Blaine stated that certain types of plastic could be absorbed in living tissue.

The Quality Tea "SALADA" ORANGE PEKOE

SELECTED RECIPES

COOKING FOR THE CROWD

Nearly every socially-minded housewife is at some time faced with the responsibility of feeding the crowd. It is a smart woman who can pull out of her file a few tried and true recipes for dishes that will adequately serve 20 people or more. Here are some recipes which have been tested in large quantity. These will lighten the burden of the supper committee and add new variety to the menu:

Chicken and Celery Casserole
4 quarts cooked chicken (x)
2 quarts chopped celery
2 cups white sauce
2 cups corn flakes

Cook celery until tender but still firm. Drain thoroughly. Use water as part of liquid in white sauce. Grease baking pans. Put in layer of diced, cooked chicken. Add layer of celery, another layer of chicken and so on. Pour white sauce over top. Roll corn flakes into crumbs and sprinkle on top. Bake in moderately hot oven (400 deg. F.) for five minutes or until thoroughly heated.

(x) Approximately two 3-pound chickens. Use chicken fat for white sauce.

Corn Pudding
4 cup butter
1 cup flour
1 quart hot milk
4 teaspoons salt
1 cup sugar
2 qts. canned corn, cream style
8 eggs

3 cups oven-popped rice cereal
1 tablespoon butter
Make white sauce, melt butter; add flour. Mix until smooth. Add hot milk slowly, stirring constantly. Cook sauce over hot water, stirring until thickened. Add salt and sugar to corn; mix with white sauce. Beat eggs and add to corn mixture. Turn into greased shallow pans 10 x 14 inches.

Crush rice cereal into crumbs; melt butter and add to cereal. Sprinkle mixture over corn in baking dish. Place in pan of hot water and bake 15 minutes at 375 deg. F. Lower temperature to 350 deg. F. and continue baking for 45 minutes. Serve at once. Yield: 20 servings.

FORM WORLD ASSOCIATION
The international medical conference held in London decided to establish a world medical association composed of national associations. It will promote closer ties among the various world organizations and among individual doctors with the aim of helping all peoples to attain the highest possible level of health.

Henri Becquerel discovered radioactivity in 1896.

Concrete and cement are not synonymous—concrete is just one of the ingredients of cement.

Using New Material

Colored Plastic Replacing Wood Planking As Decks For Ships

The wooden decks of the Mauretania's decks are to be replaced by colored plastic. This new decking, which is just as strong as wood planking, has a number of advantages over the old type; it is easily washed, does not need holystoning, and will not absorb oil or grease. This plastic decking is a Clydeside development. Green plastic has been tried successfully in the Blackburn, a vessel in naval service. It is claimed to be springy underfoot, proof against tropical heat or Arctic cold, and will not catch fire. It is restful to the eyes against sea glare.

Another use of plastics in British shipyards is on the Queen Elizabeth, whose hull is being treated below the waterline with a plastic composition.

Plastic Perspex

To Be Used In Repairing Defective Stulls

LONDON.—The plastic perspex, already extensively used in surgery, is also about to repair defective stulls. Maj. George Blaine, M.D., reports in a current issue of the medical press.

Facial bones, the article says, could be corrected easily by the use of a plastic that can be molded to required shape. A missing nose or ear could be "masked" with a substance possessing the consistency, coloring and feel of the part to be replaced.

Facial bones, the article says, could be corrected easily by the use of a plastic that can be molded to required shape. A missing nose or ear could be "masked" with a substance possessing the consistency, coloring and feel of the part to be replaced.

Dr. Blaine stated that certain types of plastic could be absorbed in living tissue.

Concrete and cement are not synonymous—concrete is just one of the ingredients of cement.

And Meet Your Friends

Mr. and Mrs. Pete Janzen were Calgary visitors Tuesday.

E.G. Ranton was a business visitor in the city Tuesday.

We understand Jake Glaum is working on a patent for a new shot shell that will pick, clean and roast pheasants all in the one operation. So far he has accomplished the picking and cleaning shell, but is stumped on how to get sufficient powder in one shell to roast the birds.

The Youth for Christ meeting with Ray Osterhouse, musician extraordinary, at Carstairs Monday night was crowded. Gospel music presented in a unique manner was enjoyed by all.

—Al Regier has come to Didsbury as mechanical foreman for Mercury Ford at Cassidy's. He left a garage of considerable size north of here, where he was also foreman of the shop. The shop at Cassidy's is being enlarged to handle two cars and one truck, or four cars.

CARD OF THANKS

We wish to thank our many friends for their kind sympathy, assistance, and lovely floral tributes during our recent bereavement.

THE CAITHNESS FAMILY
